Ticktock Time-Out!

When you visit the National Watch & Clock Museum in Columbia, PA, be sure to check out the Engle clock! This clock—complete with music and tons of moving figures—weighs a whopping 1,049 pounds and nearly reaches the ceiling. After being stored in a barn for over 30 years, NAWCC staff and volunteers restored this amazing timekeeper. Here's a picture of the Engle Clock for you to color any way you like. Scan and send your colored page to mart@nawcc.org or mail it to *Mart & Highlights*, 514 Poplar Street, Columbia, PA 17512. We'll post it on our Mart page on nawcc.org!
