**FSW Supplied Tools for F302 Wrist Watch Courses**

*This list contains tools and material that the student, instructor and/or coordinator are responsible to bring to class.*

**For students taking the F302 course:**

These tools are referenced with a Timesavers (TS) part number for identification only. When students have a choice on quality, it's usually recommended to choose the best. It is highly recommended for the student to shop around at other parts vendors.

**Required Student Supplied Tools:**

- #2 Tweezers
- #5 Tweezers
- Movement Holder
- "Quality" Screwdriver Set
- Dust Blower
- Movement Cover
- Covered Parts Tray
- Rodico Cleaning Putty
- 10-12 Power Loupe (both preferred)
- 4 Power Loupe
- Peg Wood (or round toothpicks)
- Pith Wood
- Bench Plate TS #18228 or equivalent
- Bench Light and Extension Cord
- Oiler TS #23295 or #13248
- Oil Cup TS #20045 or equivalent

**Coordinator and/or Instructor to bring Cleaning Supplies and Documents for the F302 course:**

- Student Waiver for each student
- Student evaluation sheet for each student.
- 2 old fashion spinning machines for cleaning the wrist watch movements.
- 1 Gallon L&R No Foam Watch Cleaning Solution
- 1 Gallon L&R Watch Rinse Solution #3. (Send receipts for cleaning and rinse solutions to Pam Tischler, the FSW Administrator, for reimbursement.)
